14 Graph 1 shows a transverse wave moving to its right.

Graph 2 shows a standing wave on a string stretched between two points X and Y.

Positions of particles **P**, **Q**, **R**, **S**, **T**, **A**, **B**, **C**, **D** and **E** are indicated in the two figures.

Graph 1

Graph 2

Which of the following statements regarding the particles is **not** correct?

	Graph 1	Graph 2
A	**P** and **S** are in antiphase.	**A** and **C** are in antiphase.
B	**P** and **Q** are in phase.	**A** and **E** are in phase.
C	**Q** and **S** are in antiphase.	**B** and **E** are in antiphase.
D	**R** and **T** are out of phase.	**B** and **D** are out of phase.
